“ *Dr. Barbara Lucille Deming*

October 15, 2023 at 09:39 PM

“ *My mom recently passed away, and in her papers I found Dr. Deming information. My mom was her patient back in 1975. Until her death in 2020, she continued to speak very highly of Dr. Deming. So much so, that I felt compelled to look her up, only to sadly find that she, too, is gone. I would love for her family to know that their beloved family member made such an impact on one of her patients. We left Louisiana in 1976, and mom would always say if she had the money, she would have flown back to Dr. Deming for all of her appointments. She described her doctor and kind, and caring, and "a wonderful doctor". I hope this brings some joy to her family, and may she continue to rest in peace.*

Apologies for the typos...it's hard to write through tears :)

Crisanda Bravo - April 20, 2020 at 10:17 PM

Barbara was my first cousin. And I am sure that she would have loved to have seen your mother. She loved her patients and loved her babies. She retired numerous times and she was in active practice when she had an accident and she never woke up, until she was at the Gates of Heaven. I am sure she and your mother have reunited again. God bless you and your family.

“ *I still can't believe that you are gone. I think of you every day I pass by the farm (I've been by the cemeteries and pass by you Uncle Harry Aunt Lou Matt and your baby boy) and cry thinking of those years of memories I will treasure forever you were my inspiration and I love you so much I'm sorry that I was not in your life for years but I know that you knew why none the less you loved me as your Linda Gail and I will never forget everything you taught me one was unconditional love I did not get to tell you enough how much I love you so until we meet again at Heaven Gates I know that you will be waiting for me. I love and miss you Baa Boo you are so loved and missed. Forever Linda Gail*

“ *Dear Deming Family:*

Just wanted to send my condolences. Barbara was a very smart lady. She was also my Doctor. I remember that in my late thirties I became pregnant and was so very thrilled she was as thrilled as I was. Later in the pregnancy she sent me to have a test at East Jefferson she received the test results and called to set up an appointment for my husband and myself. We went to that appointment and that is where we found out that the brain and skull had not fully developed in our baby. What a brave lady she was and was with us through it all. How hard it must have been for her in these situations. I know that Gods blessings were always upon her. Rest peacefully my dear doctor and friend.

“ Dear Dave and the Deming Family,
I don't even know where to start, I am actually at a loss for the right words to express how sorry I am. Barbara was a wonderful woman, friend, Doctor, and will be missed greatly by all who knew her. Our paths initially crossed at Womans hospital in Baton Rouge where she had an OB/Gyn practice and I was working there as a nurse. She was always so kind, and smiling. Little did I know our paths would meet again and we would be great friends. I remember the day she was packing up her practice and we heard she had fallen off a ladder/stool and broke her hip, we all thought poor thing! She recovered quickly and moved to Lafayette to be a hospitalist at Womans and childrens. My family moved to Lafayette in 2011 and our paths crossed again at UL where we worked together. If she wouldn't have been there I don't know what I would've done. I'm so grateful for all that she taught me as a new NP, I felt lost. We never had a dull conversation. I loved hearing her life stories and picking her brain. She was so thoughtful. She helped with our team moral by initiating pot lucks, and we coordinated after work lunches mostly at Charlie G's. She always got escargot and I the crab cakes and we 'd split desert. I will miss so much about her and hope her memories for everyone will live on. She always had a smile on her face and a zest and exuberance for life and learning. I will miss texting her once a week with updates on us and pictures of the girls, and getting updates from her. I always loved hat she was so technology savey. I know she is in a better place and that we will continue to have lengthy conversations again one day. She is certainly smiling down on all of us, especially you Dave. To all her family and friends our deepest sympathy,love, and prayers will continue always. Wish we could've been there today but I know she understands why.
Love you to pieces my sweet friend!
April Woodrow and family-Scott,Emily and Eva

“ Dearest Dr. Deming,

Your excellent care and nurturing concern made it possible for me to have natural childbirth. That was one of the happiest experiences of my life. You always took time to educate your patients. My sympathy to your family. We all have lost a beautiful soul.

Linda Sharp

“ Dear David and Deming family, I first met your mother in a Bible study class at St. Peter and Paul Church. After the group had shared their mediocre answers to the study questions, we all then looked to your mother who had the most profound, well-thought-out answers and observations. We all became fast friends and your mother was loved by all. She was an amazing woman who had a positive impact on everyone she met. What more can God ask of anyone? I feel assured that God is welcoming her to Heaven with open arms.

I'm sending you my sincerest sympathy and hope you find some solace in knowing that many share your loss.

May God give you Comfort and Peace. Lovingly, Judy Brown

“ Dear Family & Friends:

I am writing this on behalf of the Greater New Orleans OB/GYN Society. The society is comprised of Obstetricians and Gynecologists throughout the metro area drawing from LSU, Ochsner & Tulane Hospitals and Medical Schools. Just about everyone knew Dr. Deming.

Speaking on behalf of her colleagues, Dr. Deming was a great friend, and a loving and warm hearted person. She cared for her patients with the upmost care, that was second to none. At Lakeside Hospital where I had the pleasure of working and seeing her, she always had a smile on her face and was so friendly, but she always put her patients first. Thrived on "quality of care" for all patients. She will be missed by the medical profession.

God Bless Her.

Sincerely,

Bonnie K. Wibel
