“ As an English teacher, I had the pleasant experience of having Heath in class. He was extremely respectful and willing to assume the most difficult of assignments. This attitude reflects his family and their instilling of positive values. My heart is saddened by this but full in having known such a fine young man.

“ I remember Heath, Tracy and Kassidy visiting my home during the Christmas holidays in 2003. I had just retired from the Federal Government as a Department of the Army civilian and returned home to complete radiation treatment as I recovered from my 2nd bout with cancer. I was happy to have the Kelly family visit me and proud to have an American military officer hang a special ornament on my Christmas tree. My heart is beyond broken for Heath, Tracy, Kassidy, Tristan, Kathy, and their family and friends. May God continue to watch over them and keep them in His care, until they are all reunited one day in the eternal Kingdom of God. Thank you, LTC Heath Kelly and your family, for your service to this country!

“ Heath was a great guy that cared about his family, even when we were kids. It has been many years since I last saw him, but I have always considered him not only a "cousin", but a friend.

I had the pleasure to first know Heath through conversations with his Mom, Kathy. Then in 2010 I had the honor to spend the evening with Heath and his wife, Tracy at the Bacchus Ball. It was easy to understand why his Mother was so proud of her Son.
