*I was thinking over all the years I've know her, Too many lost out of touch, one of the 1st things I thought of was when her & Marie made me a cake for my 12th or 13th birthday, that made me cry then, but now makes me smile. She was always good to me even when I was a pain & being a brat. I'll miss her advice & talks...*

“ Mom, I miss you more than words can ever say. I hope and I pray with all my heart that you knew somewhere deep inside that I only did things with your best interest at heart. I love you with all my heart. I know you are watching over all of us now.

Love,  
Suzyh

“ I will always cherish in my heart all of our childhood memories with you and pawpaw. You made memories with all of us. Like walking down the street through the cemeteries to our closest neighbors house to pick berries to make preserves. And every time I see anything with Elvis I will remember how your eyes lit up every time you talked about him. My most recent and special memory was when you finally met Bryson and got to hold him for the first ( and last) time. I love you and I'm torn to peices. I'll miss you till we meet again. Watch over us through the holes in the floor of heaven.
